

TO: Special Assistants for Development of NCCQG- Buncombe (Anne Annie Cory, Ginny, Jessie, Michael and Sky)

CC: Nick –for distribution to all NC State Leaders & News Media

FROM: Gene Hampton

DATE: January 4, 2009

RE: Development of the Asheville-Buncombe Citizen's for Quality Government

- 1) As you know, scientists have demonstrated it requires only the square root of 1% of a population to “change the consciousness” of the entire population. For the 6.5 billion people in the world that requires approximately 8000 total awakened souls. With the population of the city of Asheville being approximately 74,000 people; the consciousness requirement quotient (CRQ) is only 27 awakened souls. Thus, our immediate objective is to confirm/verify the commitment of at least 27 citizens. (We will request e-mail addresses to confirm it.)
- 2) National & State Education Policy calls for collaboration, (Partnerships), between government & community organizations to improve the quality of public education. We need to prepare plans for NCCQG – Buncombe for Quality Education. [See: NC Education Goal/Objective ‘4.3’, National Education Association, (NEA) ad and also paragraph 3, page 1 NCCQG.org] And, we MUST establish the policies, standards and requirements to assure the Asheville public education system “Develops the full potential of human consciousness of every student.”
- 3) We should target the populations of AB Tech, Mars Hill College, UNCA, Warren Wilson College, Western Carolina University, as well as Appalachian State for participation in NCCQG.

Note: Upcoming important meetings
