

You shall know the Truth & the Truth shall set you free!

God is Spirit; God is Love! God is in you & me. We are Love!

Whatever we believe, we create! You have the power to think & believe whatever you will; but the great law of the Universe is that you will experience whatever you truly believe. Our thoughts create – all your thoughts contribute to the general trend of your thinking which in turn determines the quality & direction of your life.

We must release all fear & negative thoughts/beliefs, before we find true peace & joy. To be healthy, joyful, prosperous, etc, we must be expressions of God (Love). All our thoughts must be in line with the Divine (Christ in us) before we realize our ONEness (the Divine Consciousness).

The conscious mind may only reflect the higher power of Divine Mind (God) when we are aware of our true Divine Self. When we know that this God power is in us, we will have a new life-force; there will be a new purpose & meaning to our entire lives.

When you study & pray, know always that God is within you – not out there somewhere. When you know God is right here in us, Peace comes! All our thoughts MUST harmonize with this spiritual center (Christ) before we may bring into expression the Divine Consciousness. God may only come through our minds when we are aware of our Divinity (True Selves).

Decide to transform & take charge, change old bad habits of thinking. Know thyself – wake up from false beliefs; realize you & the Creator (Father) are ONE! Be still, & know...

Faith is an act of the Will. Faith is the knowledge & conviction that we are children of God. Divine Love is the greatest force in the Universe & the 'key' to Peace & Joy!

The goal in life (Peace & Joy) is the realization of ONEness with God. To know the Truth: we are ONE; we are Spiritual Beings, living in a Spiritual World, governed by Spiritual Law.
